# Tushar Anand

tushar.anand.bpmce@gmail.com | +91-9060177959

## EXPERIENCE

**EASYLEARNINGTRE** | Junior Software Developer
Nov 2023 – Present | Bhagalpur, India

- Reduced website loading time from 10-13 seconds to 1 second, improving Google PageSpeed score from 50+ to 90+
- Built comprehensive Learning Management System using ReactJS, Bunny.net, and Supabase with video lectures, quizzes, and progress tracking
- Developed ride booking Android app using Java and Firebase with real-time booking, Google Maps integration, and SOS functionality
- Integrated multiple payment gateways (PhonePe, Stripe) for seamless transaction processing
- Created internal CRM system using ReactJS and Supabase for 10-15 employees with automated email campaigns via Zoho Mail API
- Revamped legacy website using Tailwind CSS, modernizing design and improving user experience

## PROJECTS

**AI FACE ANALYSIS APPLICATION** | TensorFlow & Gemini API

- Built intelligent face detection system using TensorFlow to analyze facial features and provide personalized fashion recommendations
- Integrated with Gemini API for AI-powered suggestions and recommendations

**PLINKZ - URL MANAGER APP** | Live on Google Play Store

- Developed Android application helping users organize and search saved URLs with custom titles and intuitive search functionality

**TIC TAC TOE GAME APP** | Live on Google Play Store

- Created interactive gaming application with multiple play modes including local multiplayer, friend challenges, and AI opponent

**AUTO REFRESHER CHROME EXTENSION** | JavaScript, HTML, CSS

- Built browser extension enabling automatic page refresh functionality with customizable time intervals

## EDUCATION

**BIHAR ENGINEERING UNIVERSITY**
B.Tech Mechanical Engineering
2019 – 2023 | 74.4%

**SKP VIDYA VIHAR**
Higher Secondary (CBSE)
2017 – 2019 | 72.2%

**SAINT TERESA'S SCHOOL**
Secondary (ICSE)
2016 – 2017 | 89.66%

## SKILLS

**PROGRAMMING**
Java • JavaScript • PHP • Python

**FRONTEND & MOBILE**
ReactJS • HTML5 • CSS3
Tailwind CSS • Android Development

**DATABASE & CLOUD**
Firebase • Supabase
Google Cloud Console

**APIS & INTEGRATION**
Bunny.net • PhonePe • Stripe
Zoho Mail API • Gemini API
Google Maps API

**TOOLS & TECHNOLOGY**
Git • Android Studio • TensorFlow
Performance Optimization • SEO

## KEY ACHIEVEMENTS

- 90% website loading time reduction with SEO optimization
- Multiple mobile apps deployed on Google Play Store
- AI integration expertise with TensorFlow and Gemini API
- Payment gateway implementation (PhonePe, Stripe)
- Real-time application development with complex algorithms
